PAA 2014 Call for Papers

Annual Meeting, Population Association of America
Boston, MA ● May 1-3, 2014
Deadline for Submissions: September 27, 2013

Instructions for Submitting a Paper

- 1. All presenters, discussants, chairs and session organizers must be members of the Population Association of America or must be registered for the meeting at the non-member rate. Please visit the PAA website, http://www.populationassociation.org, for a membership application form or contact the PAA office, 301-565-6710. Meeting registration opens in January 2014.
- 2. Submissions are made online at the 2014 Annual Meeting program website, http://paa2014.princeton.edu. The process for submitting papers is similar to that from last year. All authors are asked to submit both: a) a short abstract (150 words) to be entered online; and b) either an extended abstract (2-4 pages, including tables) or a completed paper to be uploaded to the website following instructions available online. Authors may modify their submissions online at any time until September 27, 2013.
- 3. Extended abstracts must be sufficiently detailed to allow the session organizer to judge the merits of the paper, including a description of the topic to be studied, the theoretical focus, the data and research methods, and the expected findings. Alternatively, authors may submit completed papers for the organizer to review. If your submission is accepted in a standard session, you must upload the full paper by March 24, 2014.
- 4. The PAA 2014 program website will allow session organizers to view the titles and authors of submitted abstracts as they are received online. The author making the submission must provide the full names, affiliations, and email addresses of all coauthors for each submission.
- 5. As in the past, all sessions are numbered. If you wish to have your abstract considered by two organizers, you must indicate the session numbers of your first and second choices on the online submission form. This gives the first designated organizer first right of acceptance. No paper/abstract may be submitted to more than two sessions. Authors submitting a paper to standard sessions may also have their paper considered for a poster session; see below for details.
- 6. In addition to the 121 sessions listed in this Call for Papers, approximately 100 "overflow" sessions will be created at the request of session organizers that receive large numbers of submissions. In choosing where to submit your paper keep in mind that session organizers with broad session titles generally end up organizing at least two or three sessions. You should send your paper to the sessions that seem closest to the topic of your paper.
- 7. If no session is appropriate for your paper, you may submit the abstract/paper directly to the Program Committee Co-Chair, Robert Moffitt, at Session 1201. Given the collective breadth of the existing sessions, it is expected that very few papers will need to be submitted to Session 1201.
- 8. For the 2013 PAA Meeting, 2,780 papers were submitted and 811 were accepted for standard and overflow sessions. Another 732 were accepted as posters.

Instructions for Submitting a Poster

- 1. Members are encouraged to submit abstracts/papers for consideration as posters. All of the above instructions for abstract/paper submissions also apply for poster submissions. Authors who wish to submit their papers for consideration *only* for a poster session should submit their abstracts/papers to Session 1202, organized by the Program Committee Co-Chair, Nancy Landale.
- 2. An author who is submitting a paper to one or two standard sessions may also have the paper considered for a poster session if it is not accepted in a regular session. Authors who want their papers considered for a poster session must check "yes" in the appropriate area of the online submission form. If you do not check "yes," your paper will not be considered for a poster.
